Re-industrialisation | R&D | HKSTP

- To develop a **Hong Kong/Shenzhen Innovation and Technology Park** in the Lok Ma Chau Loop. (54)
- To request the University Grants Committee (UGC) to complete the **review on the allocation of research grants** within one year, and **expand the assessment criteria** to include research impact and effectiveness of knowledge and technology transfer. (57)
- The Government will also request, through the UGC, all universities to **refine their knowledge and technology transfer plans** within six months and strengthen the role of their knowledge transfer offices in co-ordinating and commercialising research outputs.(58)

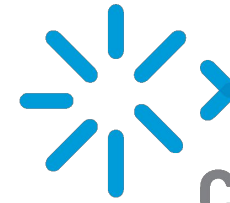

Re-industrialisation | R&D | HKSTP

- HKSTP to construct an **InnoCell** adjacent to the Science Park. InnoCell will provide **residential units** with flexible design and ancillary facilities, such as shared working spaces, for leasing to staff of the incubatees and start-ups in the Science Park. It will also be open to scientific research personnel from outside Hong Kong who work for other companies in the park. (63)
- The Government will establish an **Inno Space** with the Hong Kong Productivity Council to facilitate the **sharing of practical technologies and skills** to promote the translation of innovative and technological ideas into industrial designs or products, and support a start-up culture and re-industrialisation.(67)
- The Government will continue to implement incentive measures to encourage the private owners of eligible industrial buildings to convert them into **data centres** and further streamline the procedures for issuing waivers for such purpose. (72)

Smart City

- The Government is striving to promote the establishment of a **Common Spatial Data Infrastructure (CSDI)** to provide government departments as well as public and private organisations with an information infrastructure to **share spatial data**, support various smart city applications, and support the smart city blueprint of the ITB. The Development Bureau is commissioning a **strategic study** on the development of CSDI. (70)
- The Government has earmarked **\$500 million** for the ITB to assist government departments in using technology to **enhance the quality of public services**. (74)
- The Leisure and Cultural Services Department will develop a **new intelligent booking system** for more efficient booking and enrolment services. (222)
- The Government will commence work on the second stage of the **Electronic Health Record Sharing System**, mainly including enhancement of the system's core functions, stepping up security and privacy protection measures and further expansion of the scope of data sharing. (238)

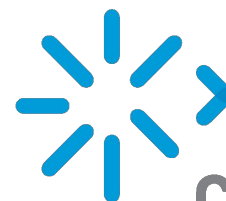

Fintech | Cyber Security | Privacy

- To promote the development of Fintech, the sector as well as research institutions and regulatory authorities are actively studying a number of projects on **cyber security and “Blockchain”**, and **building a pool of talent**. (20)
- The government will launch consultation on regulating the **person-to-person marketing calls** in the telecommunications sector.

Adoption of technology

- The Government will actively seek to require consultants and contractors to use the **Building Information Modelling technology** when undertaking design of major government capital works projects from next year onwards which it will allow construction professionals to carry out design and construction works in a virtual environment modelling technology. (130)
- The Construction Industry Council will set up an **innovation and technology application centre** to provide a platform for introducing innovative technologies into the industry to enhance productivity. (131)
- To strengthen the gate-keeping function of our **food safety** system, the Centre for Food Safety will continue to improve existing food import control and food surveillance efforts through such measures as increasing manpower and enhancing information technology management systems. (253)

Nurturing talents

- The Government will inject an additional \$1.5 billion into the **Continuing Education Fund** to encourage the public to pursue continuing education. (203)
- **Regularise the Study Subsidy Scheme** for Designated Professions/Sectors from the 2018/19 academic year to subsidise students to undertake **designated self-financing undergraduate programmes**. The number of subsidised places will be increased from about 1 000 per cohort to 3 000. (213)
